Integrated Survey of History and the Arts

Foundations makes history come alive! Each year, Foundations journeys through a historical time period. We survey the big events as well as integrate the personal stories of real people to provide deep, contextual meaning. As the subjects of History, Bible, Science, Visual Arts, and Performing Arts are woven together, a beautiful understanding of God's hand throughout history is revealed! For the 2018-19 school year, we will survey the events and culture of *The Ancient World*. Students will explore the Seven Days of Creation, live like Egyptians, travel with Moses, battle like Spartans, and so much more! We will cover Creation through the fall of Rome.

Our 2nd-6th grade students rotate through classrooms experiencing hands-on subject-focused lessons. K-1st grade students experience a dedicated classroom, using a unit study approach.

We offer:

- Hands-on, dialogue-rich learning environments
- Hyperlinked curriculum for classroom-to-home integrated learning
- Subject-focused classrooms providing a launch into weekly lessons through educational experiences such as historical reenactments, practical application of Scripture, scientific investigation, and artistic expression

Subjects we cover in the classroom and at home:

History | Bible | Science | Visual Arts | Performing Arts

Subjects you add to home studies: Math |

Phonics/Reading Instruction | Reading Comprehension | Writing Composition | Handwriting | Spelling/Vocabulary | Grammar

Classroom Teachers: Cultivate hands-on, diverse learning environments | Launch weekly lessons in each subject of study

Parents: Receive weekly Home Lesson Plans containing related resources and activities | Actively

participate in their student's education | Receive a weekly newsletter

Students: Participate in engaging classroom environments | Participate in dramatic presentations | Become prepared for the next level of learning

This program is great for: Students who learn best through hands-on experiences, investigation, and creative development | Parents who want freedom to customize in-depth learning according to their child's interests | Families who want to study history together
